Score Atlantic

Finally, a footrest that gives something back to the ocean.

Meet the Score Atlantic: made from recycled fishing nets from the ocean and designed for everyday comfort in the office. Sustainable, adjustable, and developed with care for both people and the environment.

Score Atlantic

Comfort and movement while seated

The Score Atlantic footrest supports a healthy sitting posture by positioning your feet correctly. The footplate is adjustable in six positions and tiltable, allowing you to easily adapt it to your workspace. As the plate moves with your feet, it keeps you in motion even while seated.

Good for your posture. Good for the planet.
