

Score Ergo Support

The ergonomic work chair for dental specialists who work with a microscope.
Designed for long-lasting comfort and optimal support for your back,
neck and shoulders – so you can do your work effortlessly.

Score Ergo Support

Relaxed seating for precision work

The Score Ergo Support is specially designed for oral care specialists who need to work with precision and focus for long periods of time. The ergo shape seat stimulates blood circulation, while the adjustable seat angle and lumbar support ensure a healthy working posture. The adjustable armrests provide optimal support without restricting your movement. The chair is upholstered with durable and easy-to-clean material.
